

APPENDIX D

PROJECT AREA MAPS WITH PARCEL ID NUMBERS

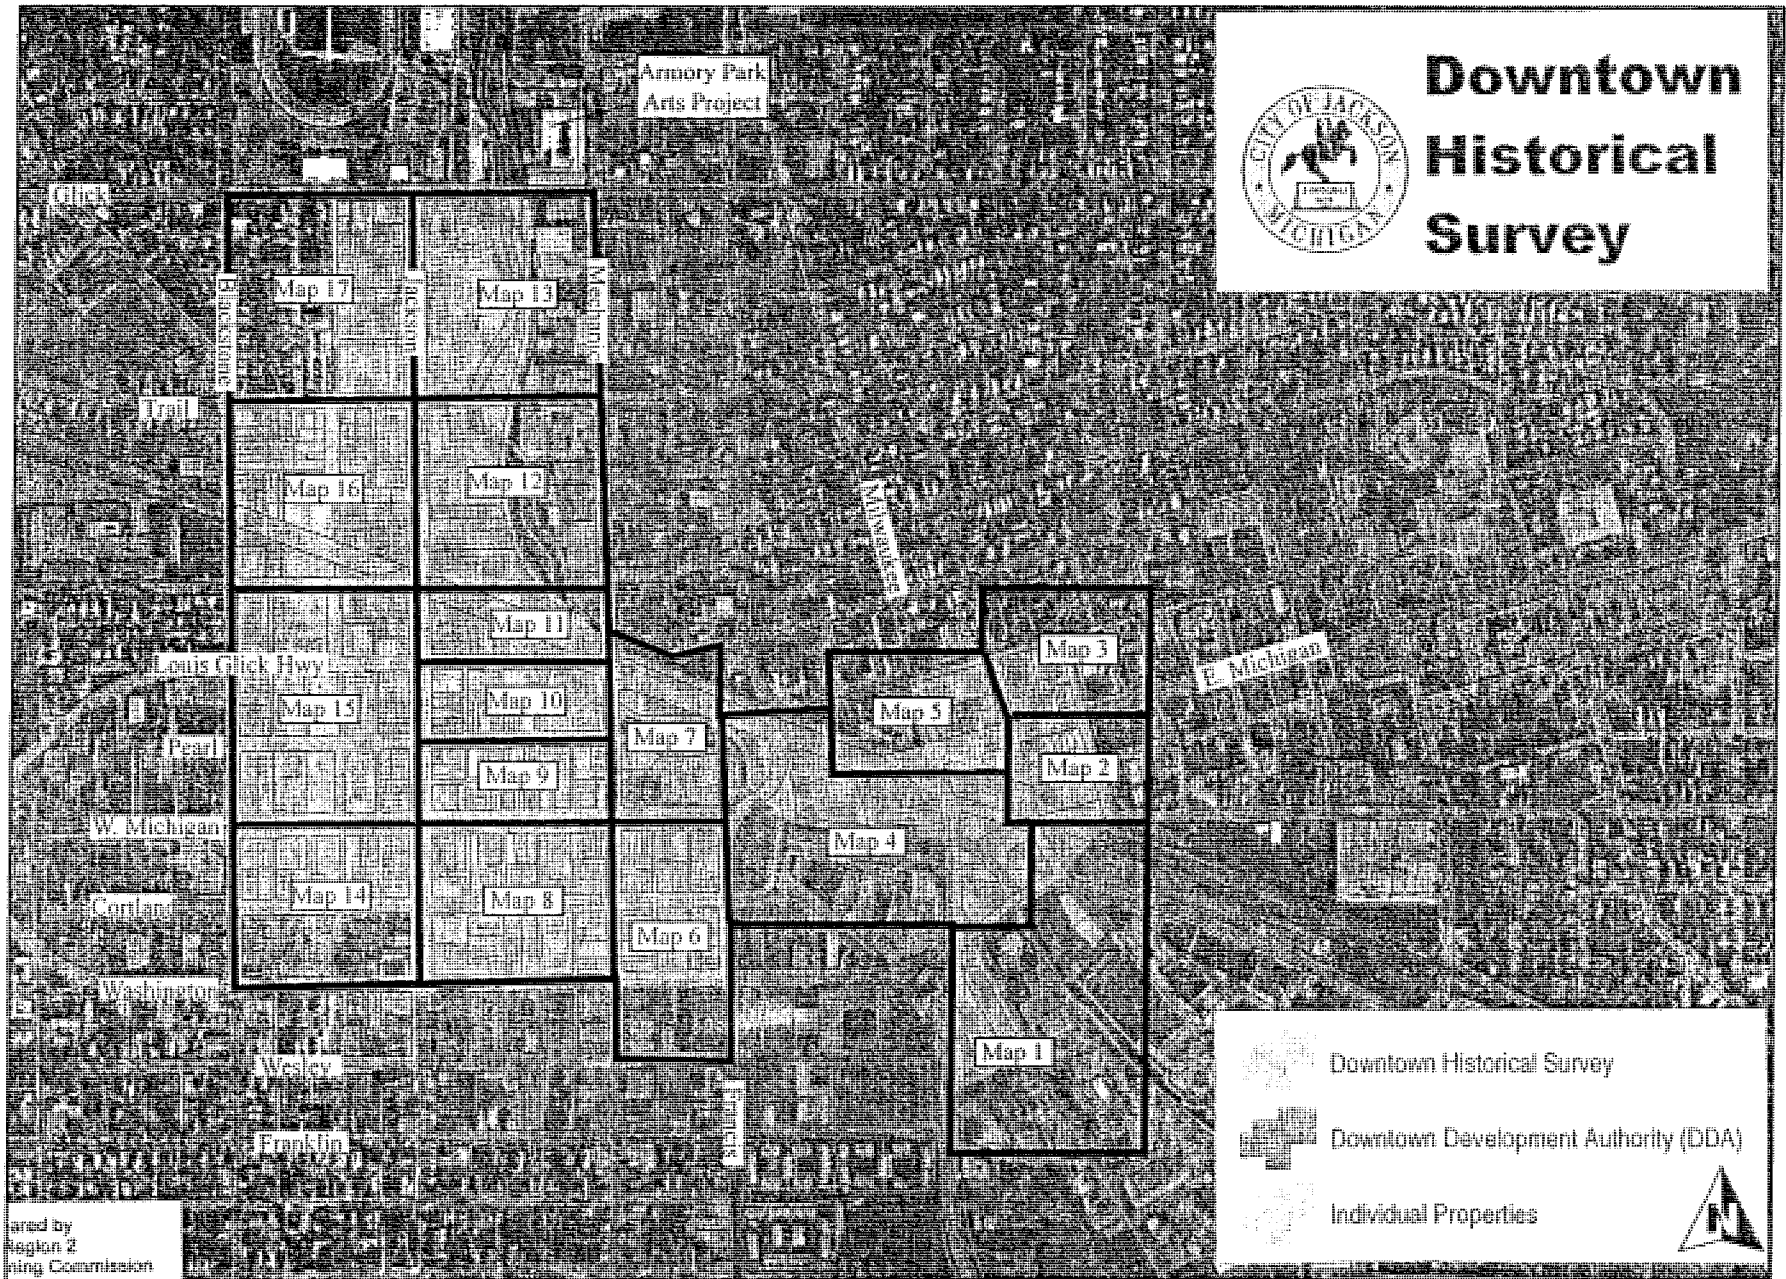

APPENDIX D
PROJECT AREA MAPS WITH PARCEL ID NUMBERS

The following 17 maps illustrate property lot lines for the area within the project area. Each parcel is further identified with the unique identification number, or Jackson stencil number as is presented in Appendix A. Stencil numbers begin on the lot they are associated with, but, due to their length, may continue across several unrelated lots. Additionally, multiple lots may share a single stencil number. All lots held under a single stencil number are connected with arrows. Because the portion of the city represented in each map is relatively small, the first map is a general area map, illustrating the location of each individual map.
