Maxwell Emcays Concepts

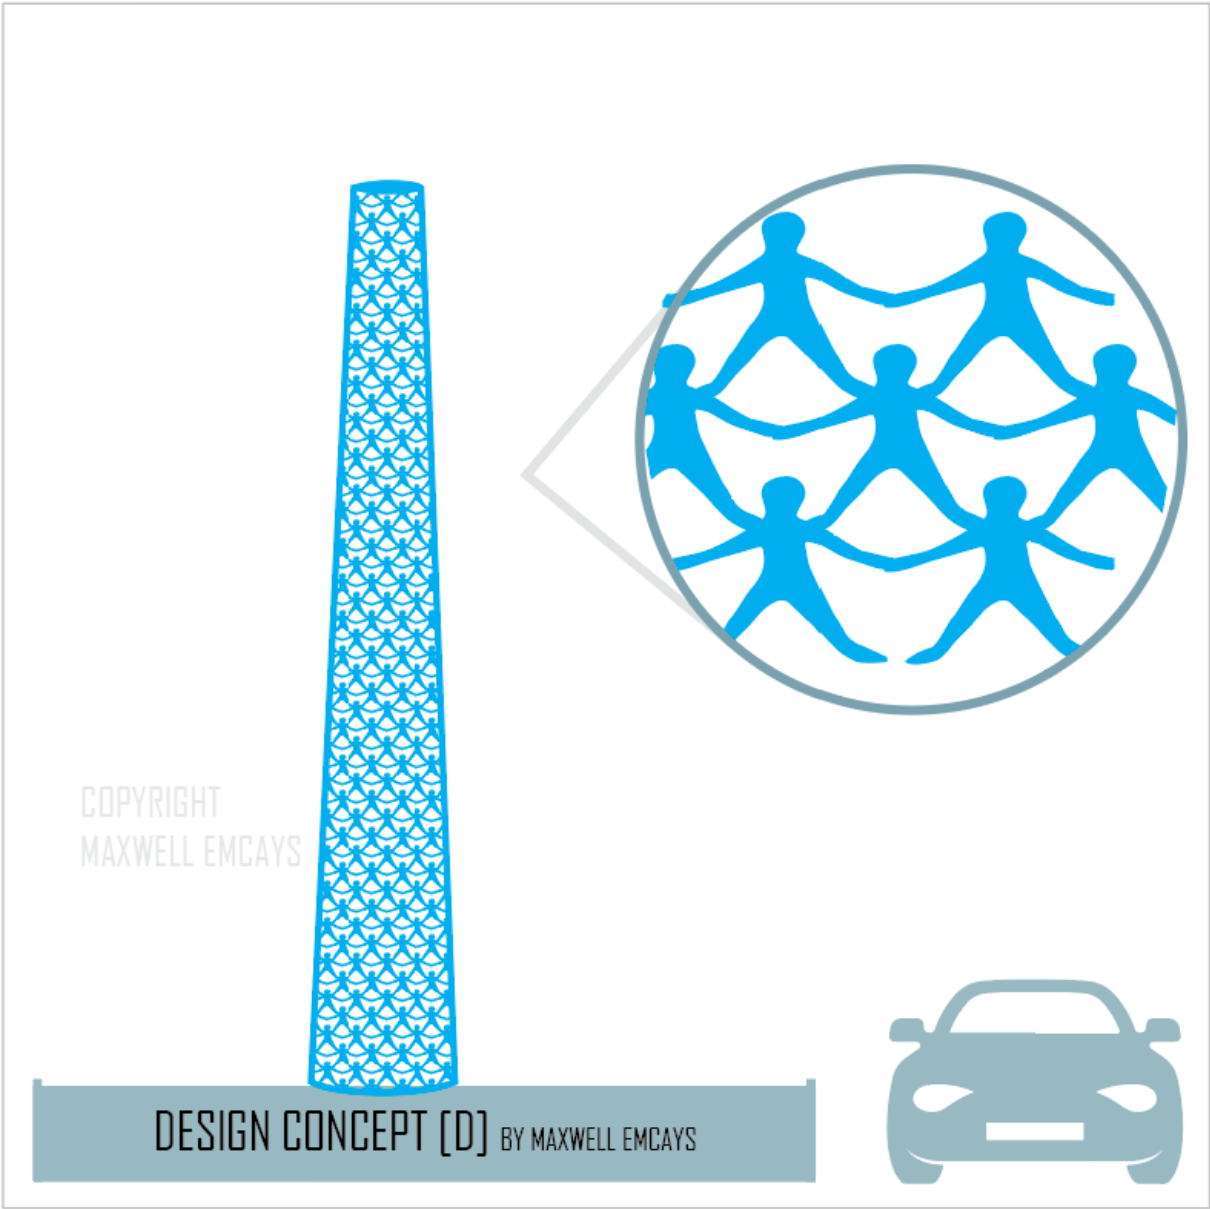

DESIGN CONCEPT [A] BY MAXWELL EMCAYS

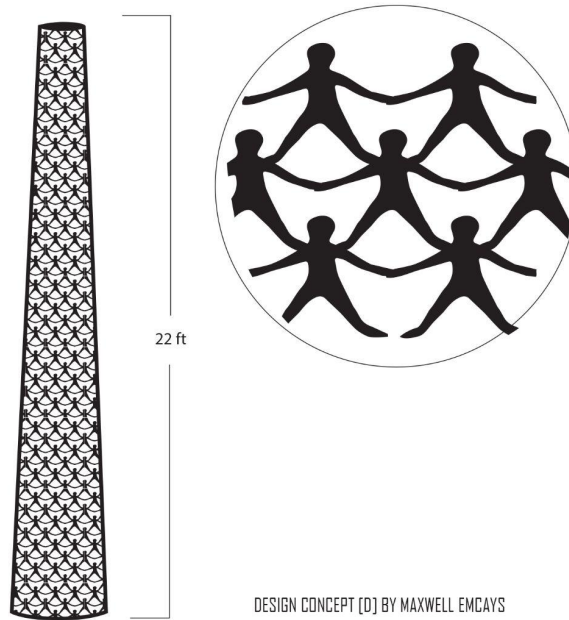

COPYRIGHT
MAXWELL EMCAYS

Concept A is titled “Beyond the Mountain Tops”. It features a young girl looking upwards imagining and reflecting on potential. She has a briefcase that alludes to her travels and ambitions that are contingent on the progress previous generations have made. She continues the dream that Dr. Martin Luther King spoke of.

Material / Method. The piece will feature a cast aluminum child figure, with aluminum facade and steel structure and concrete foundation.

Design D is titled “The Tower of Us / We Rise”.

This concept brings forth the reality that it takes a community effort to reach the highest of heights. The concept depicts individuals standing on each others shoulders forming a tower. Similar to many challenges like the great migration; it is the strength in unity that has allowed us to rise above adversity. It is unity that will allow us to ascend to the next frontier.
