ABOUT THE SUMMIT

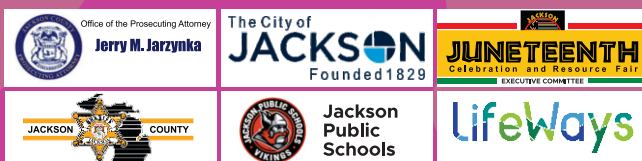

Now in its third year, the Summit to Reduce Violence continues its mission to assist the Jackson Community in reducing and eliminating violence. Initially, the focus was on identifying "The Problems" caused by violence. The following year, the spotlight shifted to "The Solutions" to these issues. This year, the community is uniting under the theme "Taking Action" to put an end to violence. By coming together, we aim to strengthen the Jackson community through collaborative efforts to devise concrete plans of action aimed at eradicating violence.
