BUSINESS IN JACKSON, MICHIGAN

FILING INSTRUCTIONS

FILING DATE: Calendar year taxpayers must file by April 30. Fiscal year taxpayers must file within four months after the end of their fiscal year.

REMITTANCE: The tax due, if one dollar (\$1.00) or more, must be paid when filing the return. Make remittance payable to:

MAILING ADDRESS: Mail your return and remittance to:

INCOME TAX DIVISION
CITY HALL
JACKSON, MICHIGAN 49201

Effective Date of Tax

The city of Jackson income tax became effective January 1, 1970. Corporations subject to the tax are required to file a return each year, commencing with their first year, calendar or fiscal, ending on or after January 1, 1970 and to pay the tax on that part of their net income attributable to business activity in Jackson.

Corporations Required to File

Every corporation doing business in the City, whether or not it has an office or place of business in the City, and whether or not it has net profits, is required to file a City of Jackson Income Tax Corporation Return, Form J-1120.

Corporations cannot elect to file and be taxed as partnerships. (1120-S) (Likewise, partnerships cannot elect to file and be taxed as corporations.)

Non-profit corporations which have applied for and received approval for exemption from the Federal income tax shall not be required to file a Jackson return provided they submit to the Administrator of the Income Tax Division a copy of their exemption approval from the Internal Revenue Service. Such exemption from the City's filing requirement will continue in effect as long as their Federal exemption is in effect.

The ordinance also specifically exempts state and national banks, trust companies, insurance companies, building and loan and saving and loan associations, and credit unions (either state chartered or federal chartered).

Filing Date

Taxpayers on a calendar year are required to file by April 30; those on a fiscal year must file by the last day of the fourth month following the end of the fiscal year. Returns shall be for the same calendar year, fiscal year, or other accounting period as the taxpayer uses for Federal income tax purposes.

Extensions

Upon written request of the taxpayer, made on or before the date for filing a return, the Administrator of the Income Tax Division may extend the time for filing up to six months, or where a longer extension has been granted by the Federal Internal Revenue Service, to one month beyond such extension. Where an extension is granted, a tentative return and payment may be required.

When an extension is granted, the Administrator of the Income Tax Division will assign an extension number. This number is to be entered on the final return, and on any correspondence required before filing the final return.

INSTRUCTIONS FOR PAGE 1

Line 1. Attach copy of your Federal Return or attach a schedule and reconcile with the income reported on your Federal Return.

Line 8. If you entered an amount on line 2 of page 1, use either of the methods explained in the instructions for computing the gain or loss from sale or exchange of property to determine the taxable portion of the gain or loss for the taxable period. Do not include capital gains and losses on the sale or exchange of United States obligations since such gains and losses are excluded from taxation under the Jackson Ordinance.

Line 12. Enter on this line the net operating loss carry-over and/or net capital loss carry-over applicable to Jackson. No deductions will be allowed for capital losses sustained prior to Jan. 1, 1970. Capital losses and capital loss carry-overs are deductible only to the extent of capital gains. Net operating losses and capital losses sustained by a corporation for periods beginning on and after January 1, 1971, may be carried over to the same extent and on the same basis as under Federal IRS code. Net operating losses may not be carried back.

Net operating losses and net capital losses carried forward are to be shown on Line 12 of this return.

Losses are to be allocated to Jackson at the percentage of business conducted in Jackson in the year in which the loss was sustained. If all business was not conducted in Jackson in the year in which the loss was sustained, use the business allocation percentage formula to arrive at the deductible portion of the loss. If you did not allocate the loss reported on prior years' returns and you did not conduct 100% of your business in Jackson, attach a schedule showing your computation for the amount reported on this line.

General Instructions

Tax payers permitted to report under the separate accounting method rather than under the three factor apportionment formula will enter only the amounts applicable to Jackson business activity on Line 1. To report under the separate accounting method, the taxpayer must regularly keep its books and records by such method.

Depreciation – Use the same basis and method as used for Federal income tax reporting.

Contributions – Contributions are deductible to the same extent, and under the same limitations, as under the Federal Internal Revenue Code.

Dividends and Interest – Taxpayers allocating on any basis other than separate accounting shall include all interest, dividends, and other non-operating income to arrive at the total income subject to the allocation percentage. Taxpayers using separate accounting shall include all interest, dividends, and other non-operating income to arrive at the total income subject to the allocation percentage. Taxpayers using separate accounting shall include in income subject to tax a proportionate share of dividends, interest, and other non-

operating income of the total corporation, using a direct allocation if the income is received by the divisions subject to the Jackson tax, or apportioning it on the same basis as general administrative and overhead costs are apportioned to Jackson activity.

Income for rents and royalties – Follow the same instructions here as for dividends and interest above.

Gain or loss from sale or exchange of property – Only the amount of the gain or loss occurring from Jan. 1, 1970 to date of disposition shall be recognized for purposes of the Jackson income tax. Adjustment for this is to be made on Page, 1, by removing the gain or loss on Line 2, and reinserting on Line 8 only the portion of the gain or loss applicable to the holding period subsequent to Jan 1, 1970, to the date of disposition. Any net capital loss carry-over is to be entered on Line 12 of Page 1. The portion of Line 2 that represents net capital loss carry-over is to be entered on Line 12 of Page 1 in accordance with the instructions for that line. The amount of gain or loss occurring after Jan 1, 1970 (to be entered on Page 1, Line 8) is to be determined by either (1) computing the difference between the Jan 1, 1970 fair market value (Jan. 1, closing price for traded securities) or the cost if the date acquired was subsequent to Jan 1, 1970, and the proceeds from the sale or exchange, or (2) by using the gain or loss for the entire holding period, as computed for Federal income tax purposes, and computing the taxable portion of such gain or loss on the ration that the number of months held in the period subsequent to Jan 1, 1970 is to the total time the property was held.

Schedule – Instructions

The business allocation percentage formula is to be used by corporations with business activity both within and without the City of Jackson who because they do not maintain sufficient records to accurately reflect the net profits from operations conducted within the City of Jackson, or for other reasons, are not using the separate accounting method.

Line 1. Enter Column 1 the average net book value of all real and tangible personal property owned by the business, regardless of location; and in Column 2 show the average net book value of the real and tangible personal property located in the City of Jackson. The average net book value of real and tangible personal property may be determined by adding the net book values at the beginning of the year and the net book values at the end of the year and dividing the sum thus obtained by two. Any other method which will accurately reflect the average net book value for the year will also be permitted.

Line 1a. Enter in Column 1 the gross annual rentals multiplied by 8 for all rented real property used by the business regardless of location. In Column 2 show the gross annual rentals multiplied by 8 for all rented real property used by the business and located in the City of Jackson. Gross annual rentals refer to real property only rented or leased during the taxable period, and should include the actual sums of money or other consideration payable, directly or indirectly, by the taxpayer for the use or possession of such real property.
